Partial List of Projects

Six Dynasty Museum and Nanjing Hanfujie Plaza Complex

Nanjing, China 2010-

Partner-in-Charge

Pei Partnership Architects is designing a museum and hotel boutique complex in central Nanjing adjacent to the former Presidential Palace. The discovery of significant archaeological vestiges has led to the addition of the important new museum to be managed by the Culture Relics Bureau

Museum of Islamic Art Park

Doha, Qatar 2009-2012

Partner-in-Charge

Pei Partnership Architects has designed Phase One of the new Museum of Islamic Art Park on the grounds of the Museum of Islamic Art designed by I.M. Pei, which opened in 2008. The nearly 70-acre crescent-shaped Park includes a new pier and plaza as the setting for a monumental vertical steel sculpture by internationally-acclaimed American artist Richard Serra. The Park also contains new public facilities such as food kiosks, restaurants, children's activities and other cultural amenities.

Instituto Sao Fernando

Massambara, Brazil 2008-

Partner-in-Charge

Located on the grounds of a nineteenth century fazenda in the Rio de Janeiro province of Brazil, this project will seek to promote and offer historical insight into Rio's Vale do Café and the 32 historical fazendas located there. The project includes the design of a new Visitor Center, the rehabilitation of an existing building into a Museum and a new building to house a Public Policy Center to promote cooperation between the government and the private sector.

The John C. Whitehead School of Diplomacy and International Relations Seton Hall University

South Orange, NJ 2008-

Partner-in-Charge

Pei Partnership Architects has completed the program and planning phase and is in the process of developing a concept design for the new building for the Whitehead School of Diplomacy and International Relations. The new building will consolidate all the functions of the school in one location immediately adjacent to the heart of the University campus. The increasing popularity of its core curriculum along with the planned addition of a doctoral degree program will result in a fourfold increase in the space requirement.

Lusail Sunset Tower

Doha, Qatar 2008-

Partner-in-Charge

This mixed-use tower will be in the new community of Lusail, a city development that covers some 35 sq. kilometers north of Doha and is planned for a projected 200,000 persons. Along with 23,600 sq. meters of Class A office space the building includes a retail floor at its podium base along with parking for over 500 cars. The building features two main Public Lobbies, one at the ground floor entry plaza and another at the top of the podium to greet those entering from the parking levels. The top podium level will contain a restaurant and café along with an outdoor terrace.

Jeddah Residential Tower

Jeddah, Kingdom of Saudi Arabia 2008-

Partner-in-Charge

The 70-storey Jeddah Apartment Tower creates an iconic building in an otherwise horizontal context. There is a wide variety of apartment types, all with direct views towards the sea and city. The typical floor size is a luxurious 700+ sq. meters. In the podium, over 5,000 sq. meters has been

Partial List of Projects

reserved for building amenities such as Health Club, gymnasiums, spas and pools.

Park Hyatt Penthouse

Beijing, China 2008-2010
Partner-in-Charge

The apartment is located on the 52nd floor hotel tower with grand views of the CCTV Tower, China World Trade Center and ten minutes away from the Forbidden City in Beijing. The 350-sq. meter apartment conveys a sense of minimalism and simplicity and is rich in texture and color. Pei Partnership Architects introduced the concept of the Chinese garden together with raised platforms with elaborate, fully latticed doors found in classical Chinese architecture into the apartment.

Château Lynch-Bages Winery

Bordeaux, France 2007-
Partner-in-Charge

Currently in the planning stage, Pei Partnership Architects is working with the client to develop a comprehensive program and planning strategy for this entire winery facility. Work will include phasing the project development and construction to assure continued wine production. Some of the main goals of the project include the preservation of the scale of the surrounding village while introducing state-of-the-art winemaking facilities in a modern, striking and sustainable design solution.

Zhengzhou Commodity Exchange

Zhengzhou, China 2007-
Partner-in-Charge

The Zhengzhou Commodity Exchange (ZCE) is now one of four futures exchanges in China. To promote the economic development of the Zhengdong New District, the new ZCE building is located at the southern main entrance of the CBD's outer loop. The base is 5,300 sq. meters in area. The project, which is currently under

construction, includes a trading hall, office tower and public facilities.

ICBC Headquarters

Beijing, China 2006-2011
Partner-in-Charge

Phase Two addition to the headquarters for China's largest bank located in the prestigious financial district of Beijing. The 60,000-sq. meter (645,000-sq. foot) project contains modernized banking services including new VIP banking and credit card facilities, an expanded trading hall, enhanced staff cafeteria and executive offices. The project was awarded through an invited design competition and opened in 2011.

Faria Lima

São Paulo, Brazil 2006-
Partner-in-Charge

This development consists of a 65,000-sq. meter office building and a 2,000-sq.-meter multipurpose building on an unusually large site along Faria Lima, São Paulo's main commercial avenue. The construction methods and components for the project will be forward-thinking and sustainable.

The Galleries at Downtown Jebel Ali

Downtown Jebel Ali, Dubai, U.A.E. 2006-
Partner-in-Charge

This project is one of two flagship developments marking the 2006 launch of Limitless, a new development division of Dubai World. The design brief calls for a mixed-use development of 620 one or two bedroom apartments in two towers of approximately 47,000 sq. meters each, and rental office space in two towers of approximately 65,000 sq. meters each. A feature intended to become a Dubai landmark is the gallery that runs from a street entrance at the south to almost the north end of the complex, a full 285 meters.

Partial List of Projects

Martha Stewart Center for Living

New York, NY 2005-2007

Partner-in-Charge

Continuing its long association with Mount Sinai Medical Center, Pei Partnership Architects has designed a 7,800-sq. foot state-of-the-art geriatric clinic for the Martha Stewart Center for Living. The new facility allows for a 30% increase in patient caseloads over the course of the next 15 years.

Alturki Plaza

Dharan, Saudi Arabia 2005-2011

Partner-in-Charge

New headquarters building for the Alturki Group. Nine-story building totaling 9,360 sq meters above grade. Currently under construction, the building is fully modern and will incorporate all of the latest features of intelligent building design, sophisticated communications, security, computer and other low voltage systems.

Qingdao Taishan Real Estate Development

Qingdao, China 2004-

Partner-in-Charge

The site is located right at the heart of the central business center of Qingdao and along the prominent thoroughfare Hong Kong Road. The Qingdao Taishan Real Estate Development is conceived as a single slender 228-meter tower. This tower is composed of three principal uses: 2 stories of retail, 19 stories of office and another 19 stories of duplex hotel service apartments, together with 5 other stories of building service and amenities.

Golden Beach Resort

Qingdao, China 2004-

Partner-in-Charge

A resort overlooking the Yellow Sea comprising 22 acres at the eastern end of the city with 800,000 sq. ft. of housing. There are 36 luxury villas, all with views of the

sea; 3 luxury apartment towers varying in height from 21 to 25 stories; all of which have access to a luxurious private health club and spa for residents of the resort. Below grade parking for 500 cars.

The Plaza at Indian Springs

The Woodlands, TX 2004-

Partner-in-Charge

This LEED-certified project consists of two medical-professional office buildings totaling 51,400 sq. ft. and two fine dining restaurants totaling 16,500 sq. ft. with 6,500 sq. ft. of adjoining dining terraces. The complex will have 400 spaces of on-grade parking and will be buffered from surrounding uses by forest preserve zones totaling 20% of the site.

Queretaro Apartment Towers and Hotel Complex

Queretaro, Mexico 2004-

Partner-in-Charge

Concept plan for three 16-story apartment towers with thirty-two 180 sq. meter duplex apartments per tower and a 10-story, 150-room hotel on top of a 400-car garage. The complex will also have restaurant, retail and sports club facilities for both residents and guests.

Jianfu Palace Garden

Forbidden City, Beijing, China 2003-2005

Partner-in-Charge

Transformation and reconstruction of the garden of the Palace Established Happiness (destroyed by fire in 1923) into a series of exhibition, reception and meeting spaces for special visitors to the Forbidden City and the National Palace Museum. The interiors designed by Tsao & McKown Architects illustrate the sophistication and intricacy of traditional Chinese imperial architecture, juxtaposed with a richness and sumptuousness in new textures and reinterpreted furnishings.

Partial List of Projects

Al Burj

Dubai, U.A.E. 2003-
Partner-in-Charge
8.2-million sq. foot luxury apartment tower with over 1,080 units, a restaurant, health club, spa and outdoor pool at the Dubai Waterfront, a large new community near the port of Jebel Ali and the Abu Dhabi border.

United States National Slavery Museum

Fredericksburg, VA 2003-
Partner-in-Charge
The United States National Slavery Museum will present the complete heretofore untold story of slavery in America. The museum complex will include classrooms and lecture halls, an auditorium, archives and a library with a capacity of 250,000 books. There will also be a theater, virtual reality exhibits and a reproduction of a slave ship.

Guanajuato State Library

[La Biblioteca Central Estatal de Guanajuato Wigberto Jiménez Moreno]

León, Mexico 2003-2006
Partner-in-Charge
The 6,750-sq. meter Guanajuato State Library was built in Leon, GTO. This library is the first building of the Centro Cultural Guanajuato masterplanned by Pei Partnership Architects in 2003. Construction was completed in 2006. The library is the recipient of the 2009 AIA/ALA Library Building Design Award.

Suzhou Museum

Suzhou, China 2002-2006
Partner-in-Charge
New 15,000-sq. meter museum for the historic city of Suzhou, adjacent to landmark structures and a garden, which is also an UNESCO World Heritage Site. The building includes 4,000 sq. meters of exhibition galleries, a 150-seat auditorium, museum shop and extensive curatorial and

collection storage areas. All spaces are organized around reinterpreted Chinese gardens.

Forum Cultural Guanajuato

León, Mexico 2001-2003
Partner-in-Charge
Pei Partnership Architects was commissioned to prepare a Master Plan for the site of Instituto Lux, the high school attended by Vicente Fox, then President of Mexico. This master plan has transformed Leon's new district with completed buildings including the Guanajuato State Library (by Pei Partnership Architects, 2006), the School of Cultural Studies, a new museum and theater. All of these elements are arrayed around a series of plazas, ranging from grand civic gathering spaces to quiet, shaded patios.

Embassy of the People's Republic of China in the United States

Washington, D.C. 2000-2008
Partner-in-Charge
New 350,000-sq. foot chancery for the Embassy of the People's Republic of China to the United States. The building includes grand and formal reception and banquet areas, a 300-seat theater and a 1,500-person, multi-function room, in addition to 200,000 sq. ft. of offices.

Corporate Headquarters

West Coast, USA 2000-2003
Partner-in-Charge
A 43,000-sq. foot suite of offices, meeting rooms and selected support facilities for a large West Coast-based company. The two floors are linked with a skylit atrium with views to the mountains. In keeping with the company's corporate culture the interiors are a synthesis of highly disciplined architectural design and refined furnishings.

Partial List of Projects

Palm Beach Opera House

Palm Beach, FL 2000-

Partner-in-Charge

New 1,500-seat facility designed solely for opera (as opposed to a more usual multi-function performance hall) with glazed public lobby, lounges and special events; rooms. Project includes an attached 800-car garage and triangular administration building which forms one edge of the opera house's public plaza and garden. Designed in association with Charles T. Young Architects.

The Ronald Reagan UCLA Medical Center

Los Angeles, CA 1997-2007

Partner-in-Charge

Complete replacement hospital for the UCLA Medical Center following the Northridge earthquake of 1994. Innovative 525-bed teaching facility, totaling more than 1,000,000 sq. ft., master planned, designed and executed to complement the surrounding campus and adjacent residential areas. In 2007, C.C. Pei was awarded the prestigious UCLA Medal for his role as Partner-in-Charge of this project.

Private Residence

New York, NY 1996-1999

Partner-in-Charge

Renovation and new addition to a 2,200-sq. foot duplex penthouse apartment on the Upper East Side of Manhattan.

Bank of China Head Office Building

Beijing, China 1994-2001

Partner-in-Charge

New head office building for the Bank of China, located in the historical center of China's capital city. The project consists of 118,000 sq. meters of office and banking space above grade and 55,000 sq. meters of common facilities and parking below grade. The centerpiece is a monumental skylight atrium planted with bamboo and

flowering trees amid rock gardens and water pools. Winner of the 2002 IES Lumen Award, 2002 ACEC Honor Award for Engineering Excellence and the 2001 Tucker Award for excellence in the design of masonry architecture.

Lycée Français de New York

New York, NY 1994-1996

Partner-in-Charge

Renovation/conversion of a landmark townhouse to classroom use. The building is fully climate controlled and connected underground to the school's existing landmark building on 72nd street.

Mount Sinai Medical Center

New York, NY 1993-1997

Partner-in-Charge

50,000-sq. foot renovation undertaken to upgrade three floors of outmoded neurosurgery operating rooms and related facilities. One of several projects undertaken by Pei Partnership Architects at Mount Sinai.

Sentra BDNI

Jakarta, Indonesia 1992

Partner-in-Charge

A 3.3 million-sq. foot office development, located at the center of Jakarta's new business center. Project includes two prismatic towers (62 and 45 stories), a four-story exclusive commercial building, a skylit retail concourse and underground parking for 2,000 cars, all disposed on a 6.6-acre superblock extensively landscaped with an axial reflecting pool, fountains, indigenous trees, and flowering plants.

Musée d'Art Moderne

Kirchberg, Luxembourg 1990-2006

Project Architect and Designer-in-Charge

I.M. Pei & Partners

175,000-sq. foot museum and creative arts center opened in a state park in the city of Luxembourg.

Partial List of Projects

University of Alabama Health Services Foundation

Kirklin Clinic

Birmingham, AL 1988-1992

Project Architect and Designer-in-Charge
I.M. Pei & Partners

New outpatient clinic undertaken to consolidate ambulatory services scattered throughout the University of Alabama campus in downtown Birmingham.

Grand Louvre

Paris, France 1983-1989

Associate Partner of Design & Administration

I.M. Pei & Partners

Expansion, modernization and infrastructural reorganization of the Louvre Museum. Major components include new main entrance, public plaza, underground expansion building, Richelieu Wing conversion, operational infrastructure of entire museum.

Mount Sinai Medical Center Modernization

New York, NY 1981-1992

Project Architect and Designer-in-Charge
I.M. Pei & Partners

New 625-bed teaching hospital with expanded emergency room (twice the size of the former ER), 22 state-of-the-art operating suites, diagnostic and support services, three skylit atria, an education/conference center with a 200-seat auditorium, dedicated circulation systems, and extensive visitor and patient amenities.

Fragrant Hill Hotel

Beijing, China 1979-1982

Project Architect and Designer-in-Charge
I.M. Pei & Partners

325-room low-rise luxury hotel and conference facility in a mountainside national park, located approximately 20 miles outside Beijing.

Museum of Fine Arts West Wing

Boston, MA 1977-1981

Project Architect and Designer-in-Charge
I.M. Pei & Partners

130,000-sq. foot addition to existing Beaux-Arts museum completing a circulation loop throughout the full complex; provides a new entrance, exhibition galleries, restaurants, museum sales, offices, and storage space.

John Fitzgerald Kennedy Library

Dorchester, MA 1974-1979

Designer

I.M. Pei & Partners

113,000-sq. foot presidential library complex with museum, archives, storage and study area, theaters, public reception areas and memorial glass pavilion.

National Gallery of Art East Building

Washington, D.C. 1971-1978

Designer

I.M. Pei & Partners

604,000-sq. foot addition to the original museum on a strategically located, but difficult, trapezoidal site at the head of Pennsylvania Avenue and the Washington Mall. Elected one of the "Ten Best Buildings in the United States" by the American Institute of Architects.
